LEGISLATIVE REPORT

CDC broadens import rules for dogs

Although the US has successfully eradicated the canine rabies variant through education and extensive vaccination laws, the virus is still widespread throughout the world. As a result of increased international movement of dogs and cats, use of fraudulent vaccination certificates, and the fact that rabies is nearly 100 percent fatal once symptoms appear, the Centers for Disease Control began reviewing and updating its import rules in 2021. After issuing and re-issuing interim rules, the agency published its final version on May 8.

The interim rules covered only dogs imported for resale or adoption and dogs originating in or traveling through countries at high risk for canine-variant rabies. That changes on August 1; beginning that date, all dogs and cats entering the US must meet the new regulations regardless of their country of origin or the purpose for which they are imported. The rule covers commercially-bred dogs, retail rescue dogs, dogs returning to the US after traveling abroad, dogs purchased as pets or as performance or working companions, and puppies imported to enhance breeding programs.

The AKC summary of the changes notes that all dogs must meet the following requirements to enter or re-enter the US regardless of the country they are imported from and must:

LEGISLATIVE REPORT, CONTINUED

1. Be healthy on arrival
2. Be at least six months of age
3. Have an ISO-compatible microchip (implanted prior to any required rabies vaccinations)
4. Have a CDC Dog Import Form receipt.
5. Have additional documents depending on where the dog has been in the last six months and whether or not the dog was vaccinated in the United States.

Dogs imported from countries designated as high-risk for canine rabies and dogs that have traveled through any of those countries within the previous six months will face additional conditions for entering or re-entering the US.

CDC declared the US free of the canine rabies variant in 2007, but it is still a major problem in more than 100 countries where it causes nearly 60 thousand human deaths annually. The 123-page rule that goes into effect on August 1 can be found in the Federal Register at <https://tinyurl.com/msjaetcs>. AKC is evaluating the new rule for its impacts.

Note: The ease of world-wide travel, increases in numbers of dogs imported from overseas commercial kennels, the use of fraudulent health certificates, and an explosion in the number of dogs coming from retail rescue organizations have exposed dog imports as potential sources of other dangerous diseases and parasites as well. As a result, AKC, the National Animal Interest Alliance, AVMA, and other animal organizations have urged passage of regulations to govern dog imports. Their efforts have focused on legislation through the US Department of Agriculture's veterinary health division and are slowly working their way through the legislative process. Known as the Healthy Dog Import Act, their work goes beyond the CDC purview of protecting human health from zoonotic diseases.

Three new Ohio bills

Ohio lawmakers have three new dog related bills to ponder.

HB 443 would amend Ohio law to once again allow local jurisdictions to restrict or ban the sale of commercially-produced puppies from stores in their communities. It had a hearing for sponsor testimony on April 16 in the House Government Oversight Committee; links to the bill and sponsor testimony are at <https://tinyurl.com/3a3brc29>. Representative Sara Carruthers of Hamilton is a main sponsor of HB 443; Representatives Rachel Baker of Butler and Clermont and Dani Isaacsohn and Cecil Thomas, both of Cincinnati, are among the cosponsors.

HB 539 would redefine "high volume breeder" to include anyone who keeps more than five unspayed adult female dogs primarily for breeding and sells the puppies to brokers, pet stores, or the public. Gone would be the additional language about number of dogs or puppies sold in a year to brokers, pet stores or the public. An adult female dog is one that is at least 12 months old; a dog broker is one who purchases dogs at wholesale and sells them to pet stores or other retailers. HB 539 has not had a hearing. Main sponsors are from the Columbus and Cleveland areas; Representative Rachel Baker from Hamilton and Clermont Counties is the only local cosponsor. Bill is at <https://tinyurl.com/4pfupxa7>.

SB 268 is a Senate bill that would add regulations governing veterinary telehealth services. Introduced recently, it has not yet been assigned to a committee. Bill text is at <https://tinyurl.com/mrpt3rwt>; Senator Stephen Huffman, whose district covers parts of Butler, Preble, Miami, and Montgomery counties is one of the main sponsors.

SCENT WORK

The latest Scent Work training course catalog was recently published on the QC website. We added 4-week specialty classes and will continue to evaluate and add classes to the course catalog as needed. We now offer Scent Work classes on Monday evening, Tuesday day and evening, and Wednesday daytime to accommodate most members' schedules. This means we have been training new instructors and assistants to support the additional classes being offered. Check the QC Scent Work calendar for courses you might be interested in taking with your canine teammate and send your registration form and fee to our registrar. The course catalog descriptions on the QC website will soon be updated to include the newest courses.

In addition to our exciting class offerings, future 2024 Queen City Scent Work plans include an Instructor-only training seminar scheduled for the end of June, a Scent Work-focused seminar currently

planned for the end of October that will be offered to members and the general public (plans still coming together), practice Run-throughs and a Sniff-N-Go that is tentatively scheduled for September. We will update you on all Scent Work events and classes via Groups.io email and the QCDC FB page.

Congratulations to Queen City Dog Training Club members who recently competed in a local (GCWC) Scent Work trial on April 27 & 28. QC had a number of both first-time and experienced exhibitors who earned qualifying runs and new titles at the trial. One of our SW instructors Traci Bradley proudly represented QC during the trial weekend by earning 3 Novice class High in Trial awards with her young Border Collie. We look forward to publishing future brags about our students and members who are having so much fun with their teammates!

Regards,
Laurie Fite

DOG TRAINING INTERESTS & EXPERTISE

I am currently competing in Rally with an Italian Greyhound I bred, Rascal (GCHB Resounding Hanky-Panky RN). Rascal has won many Best of Breed wins in Conformation along with Best of Opposite Sex and Awards of Merit at Italian Greyhound Club of America National and Regional Specialty shows. Performance events are a "second career" for him and he enjoys learning! Rascal earned his Rally Novice title a couple of months ago in three straight tries with scores in the mid-90s and a third place win. Now on to Intermediate. And I continue to compete in Conformation with with Rascal's 1-year-old daughter Joy (CH Resounding Joyful and Triumphant) who I also bred and who finished her championship at 7 months of age and is nearing her grand championship.

~ THREE THINGS MOST PEOPLE DON'T KNOW ABOUT YOU

1. My parents bred and showed dogs so I grew up in a dog show family and started competing in AKC Junior Showmanship at age 10 with my first dog, a Miniature Poodle.
2. My kennel name is Resounding which comes from the Bible, Psalm 150: "Praise Him with resounding cymbals."
3. My oldest dog is an Italian Greyhound who turned 17 on December 15, 2023 and is doing well with good vision, hearing, mobility and appetite.
